HOW TO USE THIS CATALOG

Start with the product reference, then open the product link for current photos and configuration details. Send your shortlist, estimated quantity and destination to request a model-specific quotation.

Edition: 02 October 2026. Specifications reflect the website collection on this date and remain subject to confirmation for the selected model and order. Photos illustrate particular versions. Prices, MOQ, samples, lead times and customization are quoted separately.

01

Furniture for homes shared with cats.

Build a coordinated collection around everyday furniture: tables, seating, storage and climbing pieces with spaces for cats.

Choose the configuration

Specify the top, capsule, opening direction and finish. Photos show one version; available combinations differ by model.

Check the fit

Compare overall dimensions with the intended room, litter tray or modular arrangement. Ask for installation and assembly details.

Approve materials and packing

Confirm the board or timber specification, finish sample, upholstery and carton details for the selected version.

02

Everyday routines. Considered choices.

Compare automatic litter care, feeders, water fountains and grooming equipment by the exact functions your customers need.

**Match the version**

App, camera, sensor and basic versions are separate choices. Similar-looking products may have different controls.

Specify the destination

Confirm voltage, frequency, plug, adapter, app availability and language for the market you plan to supply.

Review before ordering

Request model-specific documentation, operating instructions, replacement consumables and after-sales terms.

03

A place of their own.

From compact single-room houses to multi-room arrangements, compare the footprint and layout before choosing a range.

Start with the layout

Confirm the entrance, internal room dimensions and intended pet size, alongside the overall dimensions shown.

Confirm placement

Wooden construction alone does not establish weather resistance. Confirm shelter, finish and installation conditions.

Plan delivery and assembly

Request the packing format, carton sizes, hardware list and assembly instructions for each selected model.

WOODEN PET HOUSES

Let's build your next collection.

A useful first inquiry starts with five details.

01 Your business

Company name, website and sales channel.

02 Your shortlist

NAV references, configurations and preferred finishes.

03 Your quantities

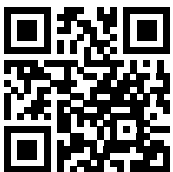

Estimated units per model and sample requirements.

04 Your destination

Country, delivery location and electrical requirements.

05 Your brief

Target timing, branding, packaging and documentation needs.
